Note: For the sake of easier reading, only the masculine form has been used for the individual categories of people; however, people of all gender forms are meant in all cases.

Poverty is not Gods plan. You are.

Dear supporters of Tearfund Germany,

It is these moving stories that you cannot prepare for. A late telephone call shortly after the devastating earthquake in Turkey. Several days of hectic planning for an unexpected, emergency aid project. Realizing that it is not possible. Our hands are simply too full.

Then the decision from our partner World Relief USA to entrust us with around 700,000 US dollars, due to our on-the-ground presence over many years in Turkey. Finally, being able to start the project - overwhelmed, overtired and yet grateful for the trust of partners and friends to join us in alleviating people's suffering.

"You have been told, O man, what is good and what the Lord expects of you: Nothing but this: To do right, to love kindness, and to walk mindfully with your God."

Micah 6:8

Tearfund Germany is grateful to be able to further expand its work in its fifth year. In 2022 we were able to double our project budget and offer help to more people than ever before. We are convinced that this mission corresponds to God's intentions. We experience our work as a gift. New staff members have joined us, as well as new project countries.

The goal of our work is to overcome poverty and injustice. Because God does not want people to have to live like this. As a supporter of our projects, as a donor or as a prayer warrior, you play a great part in the success of our work. Without you, this would not be possible. Thank you for supporting us in our mission.

Though this a report for the year 2022, the new Chairman of the Board, Uwe Heimowski, is already adding his signature. He will lead the organisation into the future. I am happy to be at his side as a board member.

Thank you very much for your trust!

A handwritten signature in blue ink that reads "Dr. Knispel".

Dr. Martin Knispel
CEO

Uwe Heimowski
CEO (since 5/1/2023)

1 WHO WE ARE

Tearfund Germany is a Christian organization for development cooperation and emergency aid. We are committed to a world without poverty and injustice, in which all people are given the opportunity to fulfill their God-given potential. We achieve this in partnership with local churches and Christian partner organizations. Our expertise is in agriculture, water supply and peacebuilding.

Tearfund Germany is part of the global Tearfund network, which works together in more than 50 countries to fight poverty and injustice.

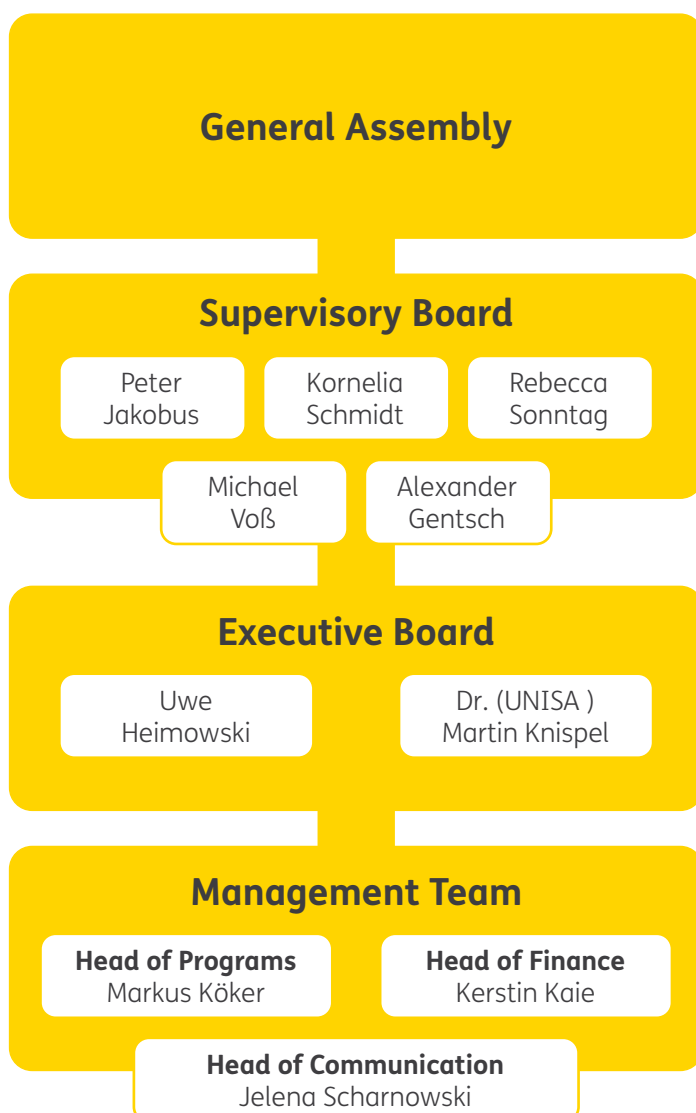

1.1 HOW WE WORK

The Christian faith motivates us to live out boundless love. We are a praying and believing community. Our commitment against poverty and for justice, peace and the protection of creation is in line with Christian values, as well as with the UN Sustainable Development Goals (SDGs).

Tearfund's approach to work is "Church and Community Development", because we are convinced that poverty can only be overcome by working together. For this reason, we always strengthen the communities involved with our projects - whether village communities, municipalities, or even churches - to become agents of change themselves.

1.2 THE NON-PROFIT

Tearfund Deutschland is an independent, non-profit association and is supported by full-time and voluntary employees at head office and in the country programmes. The bodies of the non-profit association are the General Assembly, the Supervisory Board, the Executive Board, and the Management Team. In 2022 there were 10 voting members in the association, which remain in 2023.

Networks and commitments

Together we achieve more. Tearfund Germany works with many partners and is involved in various networks to advance common causes.

1.3 OUR TEAM IN BERLIN

1.4 WHERE WE WORK

We live out boundless love in the following countries. Projects are carried out with local partner organizations, which are supported and supplemented by our own teams on the ground.

TURKEY

1

- Since 2015
- Providing projects through local Christian partner organizations
- Inclusion and education: Assisting refugee families with children with disabilities
- Family strengthening for refugees and families in need: Training trainers and conducting courses on topics such as marriage and positive parenting
- **Direct beneficiaries: 1,038 | Indirect beneficiaries: 1,557**
Expenditures: € 117,210

JORDAN

2

- Since 2014
- Family strengthening for refugees and families in need: Providing children's clubs, literacy courses, marriage preparation and parenting courses
- Income generation: Supporting courses for the establishment of microenterprises and further mentoring
- **Direct beneficiaries: 1,278 | Indirect beneficiaries: 4,980**
Expenditures: € 141,047

SOMALILAND

3

- Since 2004
- Training for pastoralists and smallholders (e.g., sustainable pasture management, contingency plans for times of drought)
- Constructing vegetable gardens and greenhouses
- Harvesting rainwater
- Supporting self-help groups for women (e.g., solidarity community engagement, income generation)
- Providing emergency aid in times of drought (e.g., water and food deliveries, WASH activities, relief packages)
- Raising awareness against FGM in rural Somaliland
- Providing urgent drought relief to vulnerable communities
- **Direct beneficiaries: 8,950**
Indirect beneficiaries: 37,700
Expenditures: € 273,719

CENTRAL AFRICAN REPUBLIC

4

- Since 2022
- Facilitating equal access to clean water and hygiene
- Implementing peace projects
- Improving livelihoods and diversifying sources of household income
- **Direct beneficiaries: 3,712**
Indirect beneficiaries: 16,666
Expenditures: € 323,440

IRAQ

5

- Since 2014
- Peacebuilding: Ultimate Frisbee and Soccer for Youth projects
- **Direct beneficiaries: 128** | Expenditures: € 115,630

PAKISTAN

6

- Since 2000
- Peacebuilding: „Faith Friends for Peace“, supporting interfaith dialogue at all levels leading to the implementation of concrete development activities in neighborhoods
- **Direct beneficiaries: 380** | **Indirect beneficiaries: 1,947**
Expenditures: € 83,192

JEMEN

7

- Since 1998
- Emergency aid: Providing water and sanitation supplies, distributing washing and hygiene articles, helping to contain epidemics such as cholera and covid-19 through the distribution of medicines, educational materials, and food items
- Sustainable development cooperation: Rehabilitating water reservoirs, harvesting rainwater, and connecting toilets to sewage disposal systems
- **Direct beneficiaries: 10,339**
Indirect beneficiaries: 18,377
Expenditures: € 607,561

SOUTH SUDAN

8

- Since 2022
- Strengthening livelihoods, agricultural productivity, and food security for the most food-insecure households
- Strengthening community-managed Disaster Management Systems
- Strengthening peace structures at the societal level for social cohesion
- **Direct beneficiaries: 10,700**
Indirect beneficiaries: 12,000
Expenditures: € 586,865

SUSTAINABLE DEVELOPMENT GOALS

Tearfund Germany strives to develop sustainable solutions. As such, we endeavour to contribute to the sustainability goals of the Agenda 2030, which were implemented by the member states of the United Nations. Our work particularly seeks to further the following eight following eight of the total 17 defined goals:

1 NO POVERTY

2 ZERO HUNGER

3 GOOD HEALTH AND WELL-BEING

4 QUALITY EDUCATION

5 GENDER EQUALITY

6 CLEAN WATER AND SANITATION

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

17 PARTNERSHIPS FOR THE GOALS

2 WHAT WE HAVE ACHIEVED

WHY DO WE MONITOR THE IMPACT OF OUR WORK?

We strive for high quality standards and transparent implementation of our project work. Quality Assurance and Impact Monitoring are therefore an essential part of our work. The aim of impact monitoring is to provide transparency regarding our funding flows and the effects of our work in different contexts.

2.1 STRATEGIC REPORT

HOW DO WE EVALUATE THE IMPACT OF OUR WORK?

To ensure effective use of our entrusted donations, we monitor the projects and the work of our project partners on-site through monitoring visits, evaluation reports, and via external consultants. We also receive and review monthly progress and financial reports from our partners to find out whether the intended goals and impacts of the project planning are being achieved in implementation. Indicators are defined, documented and reviewed for the goals to be realised. This makes it possible to measure changes and progress. Four reports are produced annually for each project to document current progress, identify weaknesses and provide suggestions for improvement. These reports are assessed by the programme department and then discussed with the local partners. Each project is documented and evaluated in a final report, thereby giving an account of the impact of our work. Project partners and our own employees are guided by internal guidelines for programme management as well as guidelines and requirements for institutional and private donors, financial implementation, and documentation of the projects. Private donations are increasingly used in combination with institutional funds in multi-year projects.

In addition, our organization has an internal set of international standards and process descriptions that are continuously revised and adapted. As part of the international Tearfund family, all 11 donor countries have been standardizing our common set of rules since 2020 and have established internal regular review mechanisms.

WHAT IS THE STRATEGY AND VISION BEHIND OUR WORK?

Since 2020, we have been developing an adapted 6-year strategy for each of our countries of operation. Projects must therefore contribute to the fulfillment of the overall strategy and its ultimate aims. The strategy is regularly reviewed together with our Tearfund partners and adapted if necessary.

IRAQ

War and displacement have shaped the lives of the Iraqi population for a generation. Even though the Islamic State has been defeated militarily, the daily lives of many Iraqis remain precarious and tense. Iraq has a very heterogeneous population - Arabs, Kurds, Christians, Muslims, and Yazidis - who are split across several political and armed factions. Although the humanitarian emergency has gradually subsided, many people lack an essential aspect of their lives - peace; whether it is an inner sense of well-being or the healing that comes from reconciliation with former adversaries.

GOALS OF OUR WORK

Salam Alaikum - this Arabic greeting means “peace be with you” - and peace is also what the people of Iraq need. War and displacement have determined the lives of the people. Tearfund Germany and Humanity were the first organizations to help since the victory over ISIL in 2017 operations in the town of Sinjar. Although humanitarian needs are gradually being alleviated, many people are missing something crucial in their lives: peace, inner healing, reconciliation between people and with themselves. We want to fulfill the need for peace through sports. Our goal is to contribute to social cohesion, to promote tolerance and to work together towards a common goal. And we are introducing a new sport: Ultimate Frisbee. These projects are successful interventions that contribute to deradicalization and the prevention of extremism and thus prevent potential new confrontations and conflicts.

Successes: Peace projects

- Offering eight consecutive rounds of training.
- Holding two championships for soccer and ultimate frisbee where community members were invited to watch the teams play.
- Facilitating the creation of four ultimate frisbee teams and four soccer teams (128 young people were divided into eight teams of 16 players which included about 30% girls).
- Training four coaches (2 men, 2 women) in ultimate Frisbee by the second month of the project (Train the trainer).

CHALLENGES

Bombardments and ongoing conflicts increased the risk to the conduct of our activities. However, we were in constant contact with the beneficiaries and their parents and paused activities when needed.

YEMEN

Yemen is one of the poorest countries in the Arab world and is experiencing the greatest humanitarian catastrophe of our time. The civil war has continually destroyed the economy, infrastructure, and livelihoods. 17 million people are suffering from acute hunger. 16 million require assistance to meet their basic water and sanitation needs. The world community's additional grain shortages are exacerbating the fear for survival in Yemen.

GOALS OF OUR WORK

Together with local partners in two regions, we contribute to the resilience against the consequences of war and work to sustainably improve the water supply and income situation. One of the goals is the creation of local committees so challenges can be tackled together and in a sustainable manner.

Achievements: Water, Sanitation and Hygiene (WASH)

- Facilitating 3,294 beneficiaries to have better access to water through the construction and rehabilitation of 13 cisterns.
- Completing the installation of a piped sewerage system last year. Thanks to additional funding, we have now been able to install a wastewater network treatment system benefiting 4,407 people.
- Constructing two local wastewater treatment plants (90% complete). Upon completion, 635 beneficiaries will benefit.
- Providing hygiene training in 17 communities and 9 schools to prevent diseases such as cholera and covid-19.

- Training 168 members of 17 water committees on how to manage and maintain cisterns.

Achievements: Food security

- Training 336 women in health, hygiene and nutrition.
- Establishing 14 poultry cooperatives and 12 agricultural cooperatives that received training in sales promotion.
- Providing 9 households from 12 communities with training, seeds, and tools for farming. By the end of 2022, 16 vegetable varieties, 15 cereals, and three seed crops were planted and harvested.
- Training and providing materials to 240 households from 14 communities that are now producing their own eggs.

CHALLENGES

Projects are implemented by local partners. Because of the ongoing conflict, there is inflation, insecurity and not much hope for the population.

Further information can be found at: www.tearfund-germany.org/help-for-yemen

SOMALILAND

Somaliland is an autonomous region in East Africa, comprising the northern part of Somalia on the Ethiopian border. More than half of the 5.7 million inhabitants derive their income almost exclusively from nomadic livestock farming (pastoralism). When the rains fail, hardly anything grows, the animals find no food sources, and the people are existentially threatened. Poverty and unemployment are widespread in Somaliland. Getting enough food is a daily struggle for a majority of the population. 2023 is projected to have a fifth consecutive below-average rainy season in a row, resulting in the longest drought in more than 40 years.

GOALS OF OUR WORK

Our main goal in Somaliland is to strengthen the village communities and to increase their resilience, so that people can overcome their local problems and crises with knowledge, planning and cooperation. This is to be achieved by:

Achievements: Food security

- Constructing 4 greenhouses and a vegetable garden to provide a range of vegetables.
- Providing 50 women and 70 men with knowledge and skills in nutrition-sensitive agriculture.
- Supporting the sustainable protection of natural resources through rainwater storage and the rehabilitation of local water infrastructure.
- Conducting cooking courses (topic: healthy nutrition) and training on Covid-19 prevention together with mothers' groups from 10 village communities.
- Training family health advisors who educate people about healthy nutrition through home visits.

Successes: Economic development

- Organizing 300 women in self-help groups to improve their social, economic and local political situation.
- Training 32 members of existing and newly founded greenhouse cooperatives on conservation agriculture and the use of greenhouses.
- Providing literacy courses.
- Providing continuing education, awareness campaigns, and training on the topics of nutrition and diversification of food and income.

Successes: Drought relief

- Providing water and sanitation for 750 vulnerable households in 4 communities.
- Supporting 750 vulnerable households to transport water for 15 days of water transport.
- Training 8 hygiene promoters in basic WASH skills with two promoters in each community and the provision of hygiene kits.

Successes: Inclusion

- Educating children with disabilities (autism, Down syndrome, developmental delays, etc.) and providing support for their parents.

Achievements: Stopping Female Genital Mutilation

- Identifying 24 men and 24 women to participate in the dialogue session led by the Generation Dialogue facilitators.

CHALLENGES

The current drought in East Africa is hampering agricultural projects and increasing the logistical effort around water supply. In addition, staffing changes in local personnel have presented some challenges to the day-to-day operations and management of the programs.

3 REPORTS 2022

3.1 EXECUTIVE BOARD REPORT

The year 2022 brought unforeseeable changes. Due to my prolonged illness at the beginning of the year and resulting absence for a number of months, the Supervisory Board had to react quickly and appointed Bernd Gülker, previous Supervisory Board member, as interim Chairman of the Board. I was grateful to know that the work was in experienced hands and subsequently decided to step down permanently as Chairman. Many thanks to Bernd Gülker for taking over! In January 2023, Uwe Heimowski was appointed as the new Chairman of the Board. In all this, we knew we were well supported by our General Assembly and the Supervisory Board.

A quantum leap in the history of our still young organization was the German Federal Ministry for Economic Cooperation (BMZ) pledging to confer a total of 6.5 million Euros to us for two major projects in our new project countries - the Central African Republic and South Sudan. Visits that have already taken place show that the projects are off to a good start and first successes are visible.

However, these unexpected pledges which are practically impossible to refuse, the associated increase in personnel costs, and donations not rising to the extent we had hoped, meant that we had to close 2022 with a slight deficit. We can cope with these growing pains, and our auditor's certificate confirms this. At the same time, we are now challenged to address this imbalance in 2023. These developments mean two things. First, they confirm that our work is well-respected, appreciated and sustainable. When a still young organization receives financial pledges of this amount, it is an extraordinary sign of confidence. Secondly, we must continue to economise as well as attract higher levels of donations (whether tied to specific locations/projects or for more general purposes where we believe the need to be greatest). This is a challenge in increasingly difficult times, one which we are happy to take on. One cut is the closure of our project office in Jordan. We consider our work there to be done, have handed over the last project into local hands and are turning to new fields of work among the poorest, true to the Tearfund motto: „We follow Jesus where the need is greatest“.

All in all, the 2022 financial year was a good year and once again a challenging one. We were able to master it because we have a very good team of employees who show great commitment and passion. Without them, our work would be unthinkable. Above all, we experience the fruits of our work as God's blessing and look forward to continuing to be there for people in need.

Dr. (UNISA) Martin Knispel,
Board of Directors

3.2 SUPERVISORY BOARD

In accordance with its advisory and control function, the Supervisory Board intensively monitored the management of the business by the Executive Board in 2022. From the Supervisory Board's point of view, this year was marked above all by the changes in the Executive Board. In February 2022, Bernd Gülker left the Supervisory Board to take over the management of Tearfund Germany as interim CEO and to relieve Martin Knispel due to illness. After Martin Knispel decided to permanently step down as Chairman, the Supervisory Board started the search for a successor in autumn 2022. With the appointment of Uwe Heimowski in January 2023, this process was brought to a successful conclusion. We are very grateful to have found a new chair in Uwe Heimowski, who, with his many years of experience in spiritual service and in working for the participation of disadvantaged people, as well as his public presence, brings with him the best prerequisites to further develop Tearfund Germany and make it better known.

In addition to overseeing the ongoing activities of the association, one focus of our work was to support the board in continuing the transformation of the work that began in 2020. This included conceptual work focusing on Tearfund Germany's identity and, its future strategic direction, and its further integration into the Tearfund family. The Supervisory Board was regularly and comprehensively informed about the economic and financial situation of the association, about public relations work and about the projects in the various programme countries. It was encouraging to see how the work of Tearfund Germany in the programme countries helps people out of poverty and enables them to live in dignity.

The Supervisory Board would like to thank the Executive Board, the Management Team and all employees for their commitment and good cooperation in the reporting year. We would especially like to thank Bernd Gülker for his commitment as interim Executive Board member. We would also like to thank the members of the association for their close exchange with the Supervisory Board and, above all, the numerous donors and supporters, without whom the work of Tearfund Germany would not be possible.

Peter Jakobus,
Chairman of the Supervisory Board

3.3 FINANCE REPORT 2022

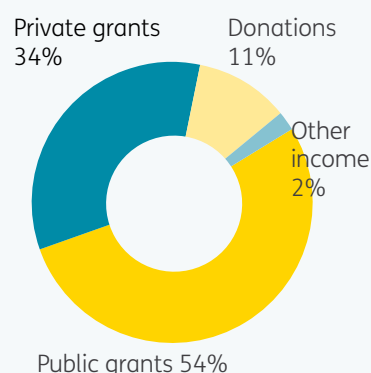

Tearfund Germany (TFDE) relies on institutional funding and donations from private individuals. We carefully manage the funds entrusted to us and guarantee appropriate administration. Whoever donates to Tearfund Germany can be sure that the money will effectively benefit people and communities in need. Our accounting and valuation were carried out in accordance with generally accepted accounting principles and the German commercial law based on German Commercial Code (HGB).

INCOME 2022

TFDE recorded revenues of €2,536k in 2022 (previous year: € 1,290k), which is double that of the previous year. In the area of institutional projects, Tearfund was able to considerably. For the first time, Tearfund Germany has been active in two additional countries on the African continent: South Sudan and the Central African Republic. This supplements our ongoing work in Somaliland. The acquisition of new institutional donors, which was accelerated

in 2021, has borne rich fruit. Our cooperation with other organizations in the Tearfund family continues to deepen and develop very positively. Furthermore we are very pleased with the development of income from private organizations and donations from other works/ foundations. Donations from private individuals have remained at a similar level has remained almost the same, which is a great success in the face of war and inflation.

Period	2022	2021
Income from public subsidies	1,359,722	240,213
Income from private grants	866,676	694,518
Donations from other organizations*	26,887	73,530
Donations from private individuals & forwarded donations/offerings*	243,764	251,498
Other operating income	38,486	29,190
Interest revenue	0	904
Total revenue	2,535,536	1,289,854

EXPENSES 2022

Total expenses have unfortunately also doubled, from € 1,277k to € 2,629k, resulting in an overall deficit of almost € 94k compared to the surplus of the previous year. The breakdown into project expenses and advertising and administrative expenses follows the guidelines of the German Central Institute for Social Issues (DZI).

According to the DZI's definition, a share of advertising of 10% to 20% of total expenditure is appropriate. In 2021, due to high administrative and acquisition costs our share of advertising and administrative costs was briefly 34.1% which decreased again to 14.33% in 2022.

Period	2022	2021
Project expenditure	2,248,164	841,822
• Project implementation	1,988,069	628,479
• Project monitoring	188,308	191,071
• Campaigning, education, and awareness work	71,787	22,273
Advertising and administrative expenditure	381,217	435,594
• Advertising and public relations	127,517	142,959
• Administration	253,700	292,635
Total expenditure	2,629,381	1,277,417

*Contrary to the recommendations of the IDW (RS HFA 21), the donation income was recognized as income in the year of receipt.

PROJECT EXPENSES

In addition to Yemen, two countries on the African continent have become new focal points for TFDE in 2022: South Sudan and the Central African Republic. Meanwhile TFDE's engagement with Somaliland continues to grow and new private and public donors have been attracted. We were also active in Iraq in 2022 with a youth peace

project. Although last year brought us relatively steady growth, our goal remains to continue to build up a higher, stable basic level of funding from private donations which we are able to allocate as necessary. This would allow us to compensate well for any funding gaps between projects.

Countries	2022	2021
Yemen	€ 607,561	€ 274,004
South Sudan	€ 584,865	-
Central African Republic	€ 324,440	-
Somaliland	€ 273,719	€ 200,113
Jordan	€ 141,047	€ 99,240
Turkey	€ 117,210	€ 127,361
Iraq	€ 115,630	€ 7,101
Pakistan	€ 83,192	€ 134,003
Syria Refugees*	€ 1,501	-
Afghanistan**		€ 5,553
Total Project Expenditure	€ 2,248,164	€ 847,375

PERSONNEL AND SALARIES

The association employed an annual average of 13 employees within Germany in 2022 (previous year: 12.5), three of whom were three of whom were employed on a part-time basis. There were 8 honorary staff members (mainly Supervisory Board and General Meeting). No expense allowances were paid to them.

At the end of the year, there were a total of 9.5 employees abroad, compared with 14.75 in the previous year. The annual remuneration for full-time employees of the office and managerial staff in the project countries was between € 32.6k and € 66k for full-time positions as at Dec. 31st 2022. The annual salaries of the local project staff are based on the conditions in the respective countries and range from between € 2.4k to € 19.3k p.a.

Tearfund Germany is managed by an executive board and a management team, the latter consisting of three additional members. The Executive Board's remuneration was set at € 64.8k in 2022 with € 44k paid (for 8 months).

ADMINISTRATIVE COSTS

Administrative expenses decreased by 15% in 2022 and amounted to approximately € 250k (previous year: € 293k).

CAMPAIGNING, EDUCATION AND AWARENESS WORK

In 2022, we realised opportunities to develop our campaigning, education and awareness work. As such, our expenditure in this area tripled to € 72k (previous year: € 22k).

ADVERTISING AND PUBLIC RELATIONS

In 2022, our fundraising efforts comprised digital campaigns, social media such as Facebook and Instagram, the TFDE website, annual reports and personal letters to our supporters. Companies and service providers were commissioned to aid with fundraising but no performance-related fees were paid. Our costs for advertising and public relations in 2022 came to € 128k (previous year: € 143k), of which € 49.1k (previous year € 49.3k) were used for the development of project applications and the acquisition of funding.

*Including projects among Syrian refugees in Jordan. **Support for Tearfund UK's Afghanistan emergency projects.

DZI DONATION SEAL

The German Central Institute for Social Issues (DZI) certifies that funds entrusted to our organization are handled responsibly. TFDE has been certified with the DZI Donation Seal since 2012.

This means that we are committed to complying with the donation seal standards:

- Purposeful, economical and efficient use of funds
- Reliable and audited financial reporting
- Clear, truthful, open, and factual advertising and public relations work that respects the dignity of those concerned
- Effective control and supervisory structures
- Transparency to the general public

Compliance with the standard is regularly checked by the DZI.

BALANCE SHEET AS OF 12/31/2022

Notes to the balance sheet: Receivables from grants relate to public and private funds for project work that have been approved but not yet received. The liabilities from grants relate accordingly to € 5,838 k (previous year: € 741k) in funding commitments from project sponsors for which no funds have yet been received, and € 1,295k (previous year: € 130k) in grants received but not yet used for the intended purpose. The other provisions consider all identifiable risks and uncertain obligations. The association's capital had to be liquidated to compensate for the deficit.

Assets (in EUR)	12/31/22		12/31/21	Liabilities (in EUR)	12/31/22		12/31/21
A. Fixed assets		731	945	A. Equity		0	18,109

				4. Other liabilities	38,562		23,870
				Total liabilities and shareholders' equity		7,195,779	953,744

ANNUAL NET INCOME 2022

Following a profit in the previous year (2021: € 12k), the income statement shows a deficit in 2022 of € 94k.

With a total income of € 2,535k,
**36,525 direct beneficiaries and
 93,227 indirect beneficiaries were reached.**

INDEPENDENT AUDITOR'S REPORT

The annual financial statements of Tearfund Deutschland, comprising the balance sheet as on December 31, 2022, the income statement for the fiscal year from January 1 to December 31, 2022, and the notes to the financial statements, including the presentation of the accounting and valuation methods, were audited by the auditing firm Hamburger Treuhand Gesellschaft Schomerus & Partner mbB (Berlin branch) and received an unqualified endorsement. The financial report presented here is an abridged version - the complete annual financial statements with the official auditor's opinion dated June 20, 2023, is available on our website at: www.tearfund-germany.org/about-us/#transparency
